

Page 198 Example 2

Using tables to find limits

TI-84 Plus

```
TABLE SETUP
TblStart=0
ΔTbl=1
Indpnt: Auto [HS]
Depend: [F4] Ask
```

Casio fx-9860GII

To build the table above using a GDC, enter $y = x^2$. Then use **F4** EDIT to change the values of x in the table.
